

CANOE TRAILS

ADVENTURE OF A LIFETIME

It is the purpose and goal of this program to teach each participant the skills necessary to actively participate in a true **northern wilderness adventure**. It is our tradition that returning Voyageurs, young and old alike, conduct the training of the new Candidates. In this way, first-year Voyageurs reinforce their skills in a true teaching environment. The Voyageur is sometimes a teacher, but always a student, and thus it is the responsibility of the Candidate to **learn**, and of the Voyageur to **grow**.

You will learn the outdoor skills necessary to actively participate in a true northern wilderness adventure. We will facilitate the development of life skills such as critical thinking, problem solving & communication. Together we will forge lifelong friendships that can only be made when you learn to depend on others as they depend on you.

Share with us the warmth of the campfire, the joy of voices raised in song, hear the haunting call of the loon, see a mist covered lake aglow with the rising sun, breath in the rich smell of the cedar trees, and sleep under the dancing northern lights.
